GREAT American and Foreign Office

FOR

Securing Patents for Inventors.

AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE, WASHINGTON.

R. H. EDDY,

No. 75 State Street, opposite Kilby St.,

BOSTON.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, (late Agent of the U. S. Patent Office under the Act of 1837,) determined to present advantages in applying for patents, superior to those offered inventors by others, has made arrangements, whereby, on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty, as paid back by others*,) will be remitted by him in case of failure to obtain a patent, and the, withdrawal thereof, within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have MORE CHANCES for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE, than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add, that he has abundant reason to believe, and can prove, that in no other office of the kind are the charges for professional service so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and all accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for, obtaining patents, &c.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of the claims of any patent furnished for *one dollar*. Assignments recorded at Washington. Patents secured in Great Britain, France, and other foreign countries, through agents of the highest respectability.

R. H. EDDY, *Solicitor of Patents.*

"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents.—There were few, if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more ability and success. I regard Mr. Eddy as one of the best informed and most faithful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and in no case will my feelings of friendship for him operate to prevent my bearing testimony to the fact, if called upon, that in my official intercourse with him as a Patent Solicitor, he has been prompt, faithful, and honorable."

EDMUND BURKE,
Late Commissioner of Patents.

[From the present Commissioner.]

August 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the laws and the rules of practice at the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

Com'r of Patents.

STANLEY HOUSE,

WATER STREET, AUGUSTA, ME.

W. RICKER, would respectfully announce to the Travelling Public that he has re-opened the Stanley House, Augusta, and furnished it throughout with NEW and ELEGANT FURNITURE, and made every arrangement necessary to sustain it as a First Class Hotel.

This is the most centrally located House in the city, being directly opposite the Depot, and in close proximity to the steamboat landing, Court House, Post Office, and but a few minutes' walk from the State House.

Business men, or persons travelling for pleasure, will find that this House affords every convenience or luxury that can be desired, and the Proprietor is determined to spare no pains to make it in every respect second to none in the State.

Hacks for all Stages leaving town will be kept at this House.

In connection with the above are good Stables with attentive and careful Hostlers.

THE HATCH HOUSE,

Main Street, Bangor, Maine.

This House has been thoroughly repaired, refitted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.

It is a large, commodious, and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P. & K. R. R. Regular coaches run from which to the House in the city.

Its numerous advantages to strangers, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable, in charge of competent and faithful Hostlers.

By strict personal attention to the comfort of its guests, the proprietor hopes to receive a liberal share of patronage.

TO CONSUMERS OF

PICKLES.

BELIEVING that the Public have become tired of purchasing Pickles in Packages, holding in many cases, fifty per cent. less than represented, we have commenced putting up, in addition to the present second size jar, an article which we are labelling "WELLMAN, SERVOSS & CO'S EXTRA PICKLES," and are filling into full sized jars, which are lengthwise stamped in the glass, with their exact contents in ounces—thus enabling the consumer to verify their truth.

These Extra Pickles are put up with every regard to style, quality and flavor, and will be sold at fairly remunerating prices.

We have made no change in our manner of Greening Pickles, never having resorted to any deleterious means to attain this end. The Cider Vinegar which we use is made from sound fruit, and is entirely free from Vitriol or any other mineral acid, which is not the case with that used in most brands of English Pickles found in this country.

A New Pension Bill.

An important bill to provide for the settlement of the claims of officers of the revolutionary army and their widows and orphan children, has been passed by the House, and was under consideration by the Senate, at last accounts.

Under its provisions, as we learn from the Daily Globe, the officers of the army of the Revolution, who were entitled to half pay for life under the resolutions of Congress of the 3d and 21st of October, 1780, 17th January, 1781, May 8, 1781, and March 3, 1785, will be entitled to receive the half pay, although the officer may have received, in lieu of it, the commutation of, full pay for five years, under the resolution of Congress of March 22, 1783. All claims which shall be allowed under this provision are to be paid only to the officer, if alive, or if he be dead, to his widow and children equally, or if there be no widow living, to his child or children or their descendants; the issue of any deceased child taking among them the share of their parent.

It will be the duty of the proper accounting officer of the Treasury, when applied to for that purpose by any one who by this bill is entitled to receive money, or his or her guardian, to ascertain what is due to such officer, from the time he became entitled to the said half pay until his death, that occurred before the 3d of March, 1826, but if he died after that time, up to the 3d of March, 1826, which sum is to be paid, after deducting the amount received for commutation under the resolution of March 22, 1783.

The bill also provides that the benefit of the resolution of August 24, 1780, shall be extended to the widows and orphan children of all officers who died in the service at any period during the Revolution, whether those officers belonged to the continental line, or to any volunteer corps called into service under the authority of any State; but no payment is to be made under this clause, except to the widows and orphan children of deceased officers. Surgeons' mates are also to be entitled to the benefit of the resolution of January 17, 1791, and to receive the half-pay of a Lieutenant of infantry.

It is made the duty of the Secretary of War, under the direction and with the approbation of the President of the United States, to prescribe such rules of evidence as may be necessary to carry into effect the provisions of the act according to its true intent and meaning. All payments made by its authority are to be without interest. In every case the accounting officer, before he shall order any claim to be paid, is to require satisfactory proof that the person in whose name the claim may be presented, is the *bona fide* owner of it and that the claim or any part of it has not been sold, transferred, pledged or mortgaged, to any person or persons whomsoever; and all sales, transfers, mortgages or pledges of any such claims, are declared void. This is not to extend the case of any officer or his representatives, who have received either half pay for life or commutation in lieu of it, under any special act of Congress. All persons who apply for and receive the benefit of this act, are to receive it in full satisfaction of all claims under the resolutions of Congress before mentioned, and for all losses alleged to have been sustained by depreciation in value of the certificates received as commutation under the resolution of Congress of the 22d of March 1783.

The number of officers of the Revolutionary Army to which this bill would apply was 2090.

A Tennessee paper says Senator Bell will lose about $10,000 by the "insurrection" panic! Four of his negroes, in his absence, were hung by one of the local Courts, and five more afterwards by the mob without Judge or Jury.—Yet there seems to have been a little or no evidence to inculpate them. Here people are so frightened that they dare not let the negroes assemble in Church, Sunday nights, much less usually for "meeting for any purpose," even for a social party or a prayer meeting, ranges from 15 to 30 lashes under the Virginia law.

The Grove Street School, taught by Miss Morse, entertained themselves and their friends on Christmas eve by the illumination of a beautiful "Christmas tree," the singing of several excellent songs in a felicitous style, the recitation of dialogues and the personal appearance of Santa Clause in costume, and the delivery, by him, of an address.

A large number of presents were distributed and the faithful teacher was kindly remembered.

A Compensation Bill recently introduced in the South Carolina House of Representatives provided for an increase from three to five dollars per day in the pay of members. It passed almost unanimously. But then a villainous old fellow who ought to have known better insisted upon the yeas and nays when the bill was lost.

BURNING OF A STEAMER.—The steamer Knoxville, one of the New York and Savannah line of steamships, owned by Samuel L. Mitchell, was burnt at New York Monday night. She is said to have been the fastest vessel of her size running out of New York. She was built by Wm. H. Webb, at a cost of about $200,000. She measured about 2500 tons, and was only two years old. The steamer will prove a total loss. There is about $100,000 insured on her.

CONGRESS SPEAKER IN SOUTH CAROLINA HARBOR.—A bill ameliorating the oppressive Act of 1835, is now under discussion in the South Carolina Legislature. Its first section provides:

"That colored seamen, driven into ports by stress of weather, or being brought into them involuntarily, as in case of mutiny and some other cause, shall not be confined in jail, but remain on board the vessel, or in such place as the authorities shall appoint."

The second section of the bill provides that colored cooks and seamen coming voluntarily into the ports of the State, shall not only remain on board their vessel, but the master shall give bond and security that such colored cooks and seamen shall obey the laws of the State; and in case the law is violated in any particular, or the seaman or cook is found beyond the vessel, the bond of the master is forfeited, and all the rigor of the act of 1835 is again brought into full force and effect."

During the debate in the House, some of the members uttered sentiments in honorable contrast with the hitherto unjustifiable legislation of the State upon this subject, and very different from the tone which has been generally prevalent in South Carolina—and which was so disgracefully manifested in the resolutions received by Judge Hoar who was sent to that State with temporary mandate not the very treatment of colored seamen now properly denounced by these members of the South Carolina Legislature. One gentleman said:

"The colored cook, steward, or seaman, who by the circumstances of a hard and vagabond life, has been cast upon our shores, black or tawny though he be, is nevertheless a man!

"This remains on in regard to the African race comes not agree with the modern doctrine of the dewdrop of slavery. That doctrine substantially denies the manhood of the negro.]

I am no sentimentalist, but I ask in the spirit of candor I ask in the spirit of frankness and fair dealing, whether it is right, just, christian or human, to capture and confine within four walls of a prison these poor unfortunate people, when the only offence with which they can be charged is, that they are found, with our waters contrary to the provisions of the present enactment."

Another declared that the main features of the act now in force are harsh and inhuman in their character. If, said he, a vessel be cast away upon your coast, having on board, as mariner, or as of that class obnoxious to your law, he is immediately seized and imprisoned. He who by the act of God, is obliged for life to put into your ports, though guiltless of crime, is manacled, and marched off to your jail."

The amendatory act passed the House by a vote of 61 to 47.

A new work by the author of "Father Brighthopes," "Martin Merrivale" &c., will be certain of a large sale. We have not had time to read the book, but perceive that it is characterized by the same powers of delineation and the same springliness of fancy which marked the former productions of this author.

RELIGIOUS TRUTH, ILLUSTRATED FROM SCIENCE, in Addresses and Sermons on special occasions. By Edward Hitchcock, D. D. LL. D. Boston: Phillips Sampson & Co. 1857.

The collection of these sermons, and their presentation in so available and attractive a form, will prove of essential service to the cause of religion. To many skeptical minds the illustration of religious truth by the teachings of Science will come with a force which cannot be brought to bear upon them through the ordinary appeals to the evidences of Christianity. The Addresses and Sermons of Professor Hitchcock embraced in this volume, are upon the following subjects: The Highest Use of Learning; The Relations and Mutual Duties between the Philosopher and the Theologian; Special Divine Interpositions in Nature; The Wonders of Science compared with the Wonders of Romance; The Religious Bearings of Man's Creation; The Catalyptic Power of the Gospel; The Attractions of Heaven and Earth; Mineralogical Illustrations of Character; The Inseparable Two; A Chapter in the Book of Providence; The Waste of Mind.

ANOTHER ROBBERY.—The store of Messrs. Goodwin & Webster was entered on Wednesday night, by breaking a window, and a quantity of provisions stolen therefrom—including several pounds of pork, roasts of beef &c. A dog is usually kept in the store, but happened to be absent on that night.

An unsuccessful attempt was made to enter the store of Mr. E. H. Rollins on the same night.

IRON STEAMER BETWEEN BOSTON AND NEW YORK.—The New York Journal of Commerce learns that an effort is being made to establish a line of efficient iron steamers on the ocean route between Boston and New York, with power to make the run in thirty-six hours, and leave each port twice a week.—These steamers will be about 800 tons each, and will run direct.

Six stores in one block, on Union St. Boston, were entered by thieves on Monday night. The whole amount of their plunder, however, was less than $100.

A FIRST RATE NOTICE.—Capt. Ryders, who is prevented, according to his own story, only by the age from going out to join Walker, receives the following first-rate notice in the New York Tribune:

"We feel confident that the Captain could be spared a few weeks by our city, and any insurance office familiar with the excellent care he takes of his precious life would insure it at a very low figure, even in Nicaragua. And any expedition into which the valiant Captain should throw himself might be considered tolerably safe from bullets while he conducted its operations, and from drowning at all events."

Yesterday, Thursday, we had a fall of snow to the depth of four or five inches, giving the city folks good sleighing—for the present, at least.

A KEY TO A FINANCIAL MYSTERY.—The New York Register says:

Only a few days since, a modern chemist took a thousand dollars in gold eagles, and put them through the crucibles; the next day he deposited the bullion in the assay office, and the next day after received a check for about $1 050.

The plain English of this matter is—"Some dirt or metallic substance can be combined with the gold," and such combination will stand the assay tests of our mints." The secret or science of doing this was discovered in France, and communicated to this country early last summer. The case cited above is only one of the repeated experiments made, with like results, at the assay office in this city, and at the mint in Philadelphia. The same assay tests are used in the European mints, the same result would indoubtedly follow.

Hence we irresistably come to the conclusion that operators, bankers or bullion dealers, having their headquarters in France, have engaged in the *appreciation* of the precious metals. This, in our vision, solves the great financial mystery of the premium paid for bullion, without running all parties engaged in it.

Although this alloyed bullion will stand the usual mint tests, yet it is quite certain that time, and the other influences will make their mark upon coin made of it.

The Register very truly observes—"While old fogy or mistaken ill sincere officers on far salute us, modern civilization are playing such pranks as this."—*Thompson's Reporter.*

Steamer M. Sanford as will be seen by a notice in another column, makes her last trip for the season, from Frankfort on Monday morning.

The ladies of the severe religious societies of Belfast propose to unite in holding a festival for the benefit of the poor of that city on Wednesday evening next.

LACK REPUBLICANISM.—It is a matter worthy of consideration how much the term *Black*, applied to the Republican party, has to do with the false ideas with which the Southern orators and others filled the minds of the negroes. It is truly such a remarkable instance of a great wrong coming back with all its force upon the wrongdoers. The story that was raised to alarm the whites with a threat of a servile insurrection, has put the idea of freedom into the heads of the negroes, and the offensive epithet applied to bring opprobrium upon the party, has probably greatly strengthened that idea. Had the Southern people allowed the Republican party to exploit and defend itself in the Southern States, nothing of this alarm would have taken place.—*Providence Journal.*

TRUE STORY.—Among many curious anecdotes, illustrating the sagacity of the canine race, the following deserves a place: A large Newfoundland dog belonged to the captain of a ship engaged in the trade between Nova Scotia and Greenock. On one occasion, the ship was brought from Halifax a beautiful cat, which formed a particular acquaintance with Rover; and these two animals of such different natures were almost inseparable during the passage. On arriving at Greenock, the cat was presented by the captain to a lady of his acquaintance, in whose family she remained for several weeks, and was occasionally visited by her friend and fellow-passenger, Rover, who seemed not a little displeased at the separation which had taken place between them. On the day, however, when the ship was to leave the port for another voyage, the usual bustle on board gave Rover a hint of what was going on, and he decided on his own line of conduct without delay. He jumped on shore, made his last visit to puss, seized her in his teeth, much to her astonishment, and carried her, through the streets to the quay, just as the ship was about hauling off. He made a spring, cleared the gunwale, and fairly shipped his fellow-friend in good order and well-conditioned, in and upon the good ship Nancy, of Greenock; and then ran to his master, wagging his tail, as if entreating that she might remain on board.

A juror at Lyons was called out by the clerk. The man advanced to the Judge's desk and said—"Judge, I should like to be excused."

"It is impossible," said the Judge decidedly.

"But, Judge, if you knew my reasons."

"Well, sir, what are they?"

"Why, the fact is——" and the man paused.

"Well, sir, proceed," continued the Judge.

"Well, Judge, if I must say it, I've got the itch."

The Judge, who is a very sober man, solemnly and impressively exclaimed, "clerk, scratch that man out."

DEFINITIONS.—*Home*—the place where children have their own way, and married people resort when they have nowhere else to keep themselves.

Wife—the woman who is expected to purchase with ut means, and sew on buttons before they come off.

Bore—a thing or an event of which it most emphatically should never go to the opera, consequently need never have a new hat.

Dinner—the meal which is expected to be in exact readiness whenever the master of the house happens home to eat it, whether at two or half past three.

Washing Day—the time when a woman can grow a broomstick at a thievish dog, or say "I won't" without being thought cross.

Trousers—the disputed territory.

A MAINE MAN SWINDLED.—Mr. Luther Cleveland, of Kendall's Mills, arrived recently at New York, en route for Charleston, S. C. Desirous of obtaining a ticket for a passage in one of the Charleston steamers, he made inquiry where he could purchase one, and was overheard by a "roper-in" of a ticket office, who informed him that he was agent for the steamers and would sell him a ticket. Mr. Cleveland then proceeded with the fellow, and was conducted to a ticket office kept at No. 146 Liberty street. Here the "roper-in" informed him that the price of cabin tickets was $18, but quickly correcting himself he named $25. The money was paid and the "roper-in" filled out a ticket and handed it to Mr. Cleveland, who proceeded with it to the steamer and was there told it was worthless.

Cleveland entered a complaint, and Gorgon the ticket seller, was locked up in the Tombs.

A CAPTAIN WHIPPED BY HIS CREW.—The Captain of the ship New York, which was wrecked at Barnegat on Sunday night, upon returning to the vessel, after having sent some passengers ashore in the long boat, found the cabin in possession of the crew, who fell upon him and beat him so badly that it is doubtful whether he survives.

The passengers landed from the wreck are in a destitute condition. One man died Sunday night from hunger and exposure.

The vessel ashore south of Barnegat is the barque Tasso, of St. Johns, N. F., from ——— with a cargo of coffee and sugar. Four of the crew, and two shore men who went to their assistance, were drowned in attempting to reach the shore.

ACCIDENT AT SHREWSBURY.—SEVERE RECOVERY.—A correspondent informs us that, on the 14th Nov., Mr. Harvey C. Shepherd, blacksmith, of Springfield, Me., was seriously injured by having his left hand caught in the bevel of a threshing machine, and dreadfully mangling it. Amputation was performed by Dr. F. O. Jones of S., assisted by some of the neighbors.—*Maine Farmer.*

AWFUL TRAGEDY.—TWO BROTHERS MURDERED.—J. C. Fleming and Henry W. Fleming, sons of Capt. Wm. Fleming, formerly of Cumberland, county, Pa., but now residing at Monmouth, Illinois, were killed on the 11th inst. at the latter place, by a man named Crozier.—A letter in the Rochester American gives the following particulars of the sad affair:

Mr. Fleming, who is an old and elderly gentleman, and his two sons, about 26 to 28 years of age, had called upon Mr. Crozier at his room at the Baldwin House, armed each with a loaded pistol, to force the latter gentleman into a concession and retraction of a calumny affecting their daughter and sister, with which they charged Mr. C. Mr. C., after some pretty warm sharp words passed between the parties, agreed to and did sign a retraction in the presence of a friend whom the Messrs. Fleming had brought with them.

Immediately after delivering the paper into the possession of their friend, the Messrs. Fleming or one of the brothers, said to Mr. C., "I am now going to draw like you," and one of the boys, holding a cocked pistol in his hand, directed the other to inflict the threatened punishment, which he immediately commenced.—He had struck three or four blows, when C. pulled a dirk knife from a side pocket, and passing at the same time his arm around the neck of the one who plied the lash, stabbed him in the left breast, and, as quick as thought withdrew the knife and struck the one who held the pistol a backhanded blow, which reached, and did the first to the heart of his victim. Both brothers received their death wounds in less than two seconds, and both were bloody corpses in three minutes after they were struck.

The sympathies of the people are mostly with C., who gave himself up. He acts and looks the picture of dis pair. He is a young man, some 27 or 30 years old, and unmarried. He is said to have been engaged to the lady in question, who is at present out of the State.—The other parties were respectable farmers, and two of them, understand, members of the church in good standing.

A LAW ANECDOTE.—Mr. W. C., in a notice of the Law Reporter for December, in the Transcript gives a facetious anecdote (also a fact) as follows:—

"Certain inhabitants of Morristown, Vermont, in order to rid the town of the support of a pauper cripple, feeble in body and mind, induced a man to marry her by the payment of $60 in hand and the promise of $40 in addition. It appeared that the would be hired husband, proposed to entertain a special spite against the town of his own legal settlement, and hoped that in should, by the marriage, impose the burden on them. The ceremony took place, and the parties lived together about three weeks, when the husband abandoned his wife, upon examination of his original purpose. On her petition for a decree of nullity, the Court held that the transaction was wanting in all the essentials of a valid marriage. It was a sham pretence that in regard to the relationship it was a most flagrant and disgraceful fraud."

It may be remarked here, that the attempts made by town authorities to get rid of the support of pauper are generally very pernacious and sometimes ludicrous. It is a fact that in one of the neighboring States, there there was but one pauper, who was *elected a member of the Legislature*, and actually took his seat; and it may be added, the last of his being a pauper might not have been known, had not a bill been introduced to give the bodies of paupers to surgeons, which he understanding to mean while the gaugrel were alive, was so agitated that his real character became known; and the scene may be better imagined than described when he made an appeal to his constitutional rights against such a monstrous law as the one proposed."

ANOTHER OUTRAGE IN PROVIDENCE.—A monster, whose name we withhold, for the present, from the just indignation of our fellow readers, says that if women were turned out of doors in Kansas with not more clothes on than his wife and daughters were when they went to a party one cold night last week, it would have been an outrage, and the *Journal* would have had two leaders about it.—[Providence Journal.

INCENDIARISM IN JAIL.—Barney Jordan, who is now in jail awaiting his trial for burglary, fired the jail yesterday afternoon, by heating a poker red hot and burning the floor. The alarm was given in time to prevent anything serious, and Jordan was removed to the dungeon, where he can reflect in solitude and darkness, upon the evil of his life.—*Portland Argus 26th.*

A NORTH FALMOUTH.—On the morning of December last, four little boys broke through the ice on the Lake, near the school house in Waterville, Me. The villagers hastened to the spot, but the ice was so thin that none dared venture to their aid. At this moment, just as the boys were sinking, a young man 15 years of age, named John Adams, sprang forward, seized a cake, spoke, and saving most of his clothes on the bank, plunged into the lake and saved two of the boys. He then made another dash and relieved the third. Adams was now almost exhausted, but the mother of the fourth boy was standing near in her agony, and Adams as doctor, "I'll save your boy or die."—Tying a rope around his waist, he told those on shore to pull him in if he sank, and cried out "*Stand by the rope, I am going to him.*" He then plunged in, swam out some ten feet, breaking the ice with his hands, seized the boy who was sinking for the third time, carried him ashore and restored him to his mother's arms!

Try it! Try it!! Try it!!!
G. W. STONE'S
LIQUID ATHARTIC
—AND—
FAMILY PHYSIC,
The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe, and agreeable physic ever offered to the public!
THE necessity of such a medicine has long been felt by the heads of families and physicians, the advertisers over cathartics given in the form of Pills or Powders must be obvious to every intelligent person. Operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It not only produces all the effects which physic is required, but completely removes habitual Costiveness, leaving the bowels perfectly free. It expels all humors from the blood, is a certain cure for the Piles, Regulates the action of the Liver, frees the stomach from Bile, invigorates the whole Nervous System, and removes the causes of all local pains, such as *Rheumatism, Neuralgia, The Dolorureux, Gout, Pain in the Head, Side, Stomach*, &c.
It may also be called upon with all diseases of the Bowels—DYSENTERY, DIARRHŒA, AND CHOLERA MORBUS, yield at once to its magical influence.—Again we repeat, TRY IT!—it needs no other recommendation. No family will be without it after they have properly tested its worth. Reader, if you have tried other remedies, without success, despair not—relief is now at hand. Are you suffering from Scrofula, six bottles of my style of Cathartic will cure you. Would you be relieved from habitual Costiveness, three bottles will effect it, it is certain. Have you any kind of Rheumatic, Neuralgic or other local pains, two bottles will free you from them. All humors will be eradicated from the blood by the use of from one to six bottles. In short, if you require a physic for any purpose, this is the most reliable, safe, and agreeable to be taken that has ever been placed within the reach of the public.
PRICE $1.00.

RAILROADS MAKING THEIR OWN IRON.—The New York Central Railroad Company manufactures its own railroad iron, at less cost than one half its market value. The average cost of railroad iron in America is now $60 to $65 per ton, while the cost to us the manufacturer is about $30 per ton. The cost of the Central Railroad Company's iron works, all complete, including 1560 acres of land, containing their ore, was $145,500. This sum the company saved in one year by making for itself the iron necessary to supply the annual wear, and tear of the road.

MONETARY AFFAIRS.—*Tuesday Morning Dec.* ... Transactions at the Board do not increase in magnitude yet, but a favorable feature of the market is to be noticed in the large number of buyers. In point of fact trade is a good deal restricted at the present time by the difficulty of filling orders, although of course, this is applicable only to stocks which command confidence for investment.
There is more inquiry for a few of the leading copper stocks. Pittsburg, Minnesota, Isle Royale and Nowadaga are firmly maintained.
Money is, if anything, a shade easier for choice paper. The largest share of negotiations are at 9 to 9½ per cent; second class at from 10 to 12.

MELANCHOLY OCCURRENCE.—On Thursday morning, 19th inst. Mr. Alonzo Smiley, of this city, rose from his bed at about 5 o'clock, kindled his fire as usual, lighted his lantern, went to the barn and fed his cattle. As he did not return for an hour or more, his wife sent his son to look for him, who quickly returned with the word that his father had hung himself. He was immediately taken down, but life was extinct.
It seems that after feeding his cattle he had tied together two ropes, or halters, and fastened one end firmly to a plank projecting from the scaffold, and the other end about his neck, and had leaped from a ladder which stood near by. He was a most respectable citizen, of excellent character, owning a good farm and entirely free from debt, but subject at times to great depression of spirits. He had recently labored under apprehension of coming to want, in consequence of a partial failure of his crops and in a moment of aberration of mind, produced by the above put an end to his existence. A coroner's inquest was held, and a verdict rendered in accordance with the facts stated.—*Augusta Age.*

WILL THEY VOTE. A friend, writing us from Boston, inquires whether the Free State settlers of Kansas would vote for a member of Congress, or take any action towards forming a new State Constitution, if Congress would empower them to act in the premises. Most certainly. The people of Kansas have only refused to vote under the bogus laws. We cannot, and will not recognize them. We had no voice in their enactment. They were imposed upon us by a body foreign to our soil, who sought our enslavement. To vote under laws of their enactment, is to surrender the whole question.—[Herald of Freedom, Dec. 6.

The Pittsfield (Mass.) Eagle reports the following:

"A few weeks since two children of one of our physicians were attacked with scarlatina, and during their illness had for pets a couple of kittens. Both the kittens subsequently had all the symptoms of scarlatina, one of them dying, the other narrowly escaping. A canary bird, who had age hung in the room, also died with all the symptoms of the same disease."

PANIC AMONG THE BROKERS.—The New York Mirror of Tuesday evening says:

"Quite a panic was created yesterday afternoon among the holders of the bills of the Bank of Erie City and the Bank of Nowcastle, Va., and the Bank of Hallowell, Me., by the report that those "doubtful" institutions had failed to redeem their bills. We understand that several neighboring brokers have on hand a larger amount of this currency than they care to retain."

Worth Reading.
WHEN, by long study and many experiments, a physician has discovered a new principle in medicine, by which pain may be removed and disease cured, more surely and effectively than before, it immediately becomes his duty so to bring it before the public as to give to all an opportunity to profit by his discovery. For this reason the proprietor of the Arabian Allied Ointment and Syrup offers his preparation to all who are afflicted with Scrofula, Salt Rheum, Cancerous Humors, Fever Sores, Pimples, and other eruptions, with the assurance that in nearly every case where they have been tried they have effected permanent cures. Every agent can give reference to persons in his vicinity who have been cured by them.

Summer Arrangement.

The Steamers ATLANTIC, Capt. Geo. Knight, and the FOREST CITY, Capt. F. A. Prince, will run as follows:

Leave Atlantic Wharf, Portland, every MONDAY, TUESDAY, WEDNESDAY, THURSDAY, and FRIDAY, at 7 o'clock P. M., and Central Wharf, Boston, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock, P. M.

Fare in Cabin, $1,25
Fare on Deck, 1,00

Freight forwarded daily over the A. & K. R. and P. & K. Railroads, to Bangor, and all way stations.

Each Boat is furnished with a large number of State Rooms, for the accommodation of Ladies and families; and travelers are reminded that by taking this line much saving of time and expense will be made, and that the inconveniences of arriving in Boston at late hours of the night will also be avoided.

The Boats arrive in season for the passengers to take the earliest trains from the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for at the rate of one passenger for every $100 additional.

California Steamers,
Carrying the United States Mail.

5th and 20th of each Month.

Greatly Reduced Prices. 50 lbs. Baggage Free.

Through Ticket, including transit of the Isthmus, via Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across the Isthmus to the Pacific Steamers *without any extra expense.* This, is the *only* line giving a Through Ticket, including meals, on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 20 miles of dangerous lake and river navigation, over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama, for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *certain and short* passage, without any detention on the Isthmus.

Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama, and Tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city, C. L. BARTLETT, Agent,

No. 10 Bross Street, Boston.

PROFESSOR WOOD'S
HAIR RESTORATIVE.
It has Worked Miracles!

THAT ALL THE BALD AND GRAY can be restored perfectly to original growth and color, so far as their locks are concerned, does not admit of doubt; besides, it will cure every possible disease of the scalp, whether developed as dandruff, itching, or in the shape of cutaneous eruptions—even scald-head—and in no possible case will it fail of curing, as if by magic, nervous or periodical Head ache, and Tetter. Once a week by the young and early, it will preserve the color, and keep the hair from falling to any imaginable age. Read and judge.

Ipswich, Worcester Co., Mass., Nov. 1855.

PROF. WOOD:—*Dear Sir*:—I have pleasure in bearing testimony to the magic effect of your wonderful Hair Restorative, by its use I have restored my hair to its natural color, and it now promises to grow luxuriantly, and I am happy to say that I am entirely well. I was for the last five years upon the hair dressing dye, but the healing effect of your preparation, after the *first application*, was sufficient for me. My hair had been rendered thin and harsh, and almost destitute of gloss, and also to its former color, which is fast becoming

Yours respectfully,
MRS. J. A. STODDARD.

From Mrs. Ingalls, a well known nurse in Boston.

BOSTON, Oct. 12, 1855.

DEAR SIR:—At your request, I have used Dighy's Hair Restorative, for the last five years in the hair dressing line, and I have become quite fond, and entirely weak. I was for the last five years upon the hair dressing dye, but the healing effect of your preparation, after the *first application*, was sufficient for me. My hair had been rendered thin and harsh, and almost destitute of gloss, and also to its former color, which is fast becoming

Yours respectfully,
MRS. INGALLS.

This Widower is from the Parish of the Orthodox Church, Hyde Park.

HYDE PARK, Jan. 12, 1856.

PROF. WOOD:—Dear Sir—Having made trial of your Hair Restorative, it gives me pleasure to say, that as far as I have been acquainted in removing Dandruff, and restoring the hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure and profit.

Yours truly,
I. K. BRAGG.

From the Jersey City Telegraph, Jan. 1, 1856.

WOOD'S HAIR RESTORATIVE.—This preparation is a specific supply daily by hundreds. We answer with confidence, of those to whom we recommend it, that it is the only true article which will restore, as promised, a head of hair to its original color, and prevent baldness. It promotes a luxuriant growth, and renders the hair soft, pliable, and glossy. Try it, and be convinced. But beware of worthless imitations.

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE AND RETAIL IN SMALL PACKAGES.

E. T. DYER & CO.,
(Sign of the Chinaman grinding Coffee,)
141 *WASHINGTON STREET BOSTON*

Supply the best, finest and purest articles, at the *lowest Cash prices.* Their Stock consists of

Teas, Coffees, Chocolates, Spices, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Tartaric Acid, Powdered Ginger, Coffee Mills, &c.

Having every facility for manufacturing and preparing the several articles, named, the public may rely upon their *freshness and genuine*ness, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. T. DYER & CO." To give customers a supply of our sales, we annex the following list of prices, viz:

5 lb Sumatra Tea	1 50 lb. Mocha Coffee,	1,00
5 lb Oolong Tea,	1,75 lb. Java Coffee,	1,00
5 lb Hyson Tea,	2,5 lb. Good Coffee,	1,00

The Spices are put up in 4 and 8 lb. tin cases, expressly for family use, and are warranted to be strictly pure and of the best and only needful trial to establish them in public favor.

"SPANISH COFFEE.—We would call the attention of consumers and dealers to our *Spanish Coffee*, as an article to which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee it is believed is equal to 2½ lbs. of any other.

DANDELION COFFEE.—This article is carefully prepared at our mills, and put up in packages, bearing our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

CARAVACUM, or *Prepared Dandelion Root.* This article is prepared and roasted at our Mills, fabricated by Pastry Cooks generally in city and country, and bearing our trade mark, as *Chinaman grinding coffee*, may be relied upon as the *genuine article.* The proper method is about one half the quantity of coffee. The price is 50 cents per pound, and is warranted to be the same as that which has been sold for 81 cents a pound by druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained (can be mixed with coffee or not, as best suits the taste, and will be found cheap and wholesome as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians, to invalids, children and aged persons, as a most nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

☞ In order to observe that all our Coffees have our trade mark, "Chinaman grinding coffee," ☜ to Grocers and Dealers a liberal discount is made enabling them to supply their customers at the same low rates.

TO CASH PURCHASERS.—Our object being to secure to us gain sales at small profits, we offer inducements which can not be afforded by those who do business on the credit system, and we confidently invite an examination of the *quality* of our stock, and our prices as compared with those of any other house.

Singer's Sewing Machines.

THESE celebrated machines are a practical and profitable help in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, leather or cloth, or leather they have been fully tried and approved. Sewing machines before the manufacturers ever fail to work, but SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strong, durable, and complete in construction and workmanship. A perfect sewing machine can be kept employed at from a clear profit of $1000 a year, but an imperfect one is a cause of constant vexation and loss. The unrivalled reliability of our machines is the great reason for their unparalled popularity.

MACHINES FOR FAMILY SEWING, of a light and delicate construction, are recommended by other manufacturers. Such machines are unable to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines, of the latest improved style will be exchanged at liberal prices for old sewing machines, of our own make, or for operative machines of other manufacturers. Local agents wanted, to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co's Gazette," a paper devoted entirely to the subject. It will be sent gratis.

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs and Hoarseness.

BOSTON, MASS., 20th Dec., 1855.

DR. J. C. AYER:—I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last few years has shown it to possess superior virtues for the treatment of the complaints.

EBEN KNIGHT, M.D.

MOUNT VERNON, Fay. co., Illinois, N. Y., 1855.

DEAR SIR:—I have been afflicted for several years with a severe Bronchial Cough, and by your Pectoral, which you invented, and have put into my hands, I have been cured. I have tried many remedies, but found no relief until I used your PECTORAL. With a bold cold I should scarcely be clear of it before the cough would return. Your PECTORAL has cured me, and I believe it the best remedy for the purpose ever made.

With a bold cold I should scarcely be clear of it before the cough would return. Your PECTORAL has cured me, and I believe it the best remedy for the purpose ever made.

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MASS., July 7, 1855.

BROTHER AYER:—I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of Whooping Cough, Croup, and the chief diseases of the throat. We often have use for it in our family, and appreciate your skill, and commend your medicines to our people.

HIRAM CONKLIN, M. D.

AMOS DOE, Esq., formerly Ex. Sheriff, Mass., 1856:—I had a bilious influenza, which confined me in doors six weeks. Six months afterwards, I was afflicted with a violent cough, which finally settled on my lungs. Hearing of your PECTORAL, by the advice of our family physician, I procured a bottle and commenced using it. The first dose relieved the soreness in my throat and lungs; less than one bottle made a complete cure. Your medicine took the cheapest as well as the best way to cure me, and prevented the Doctor, and every expensive, but useless, nostrum of the day. I am truly grateful for the benefit I have received from your medicine, and do not hesitate to recommend it to my people.

Asthma or Phthisic, and Bronchitis.

WEST BRIDGEWATER, Pa., Feb. 23, 1856.

SIR:—Your CHERRY PECTORAL is performing more cures in this section than all other medicines put together. I have employed several physicians for a number of years, but received no benefit from their prescriptions. I finally tried your PECTORAL, and by the advice of one bottle, I was entirely cured. I have since recommended it to many of my friends, and they have been cured by it. Your medicine took the cheapest as well as the best way to cure me, and prevented the Doctor, and every expensive, but useless, nostrum of the day. I am truly grateful for the benefit I have received from your medicine, and do not hesitate to recommend it to my people.

HENRY L. PARK, M.D.

A. A. RANSLEY, D. D. ARTIS, Morgan Co., Iowa, formerly of Pittsburgh, Pa., both employed many years in the practice of medicine, have used your CHERRY PECTORAL for their patients, and find it the best remedy they have ever known for giving ease and relief in Pulmonary complaints, and for the cure of confirmed Consumption, even in cases apparently desperate, we have no confidence in any other remedy for such complaints.

Consumption.

Dr. AYER:—Your PECTORAL has never been known to fail in my family, when taken in season, to cure the most distressing cases of Coughs, Colds, Bronchitis, and Consumption. Indeed, I have no confidence in any other remedy for such complaints, and can recommend it to my friends with the assurance that it will do all that is claimed for it.

Ayer's Cathartic Pills.

THE science of Chemistry and Medicine have long been employed in the attempt to discover an effective remedy for the various disorders of the human system, but powerful to cure, their power is rendered useless by the fact that they cannot be taken. Hence the necessity of my researches in this department of medical science, which have resulted in the production of a remedy which is at once powerful to cure, and so mild as to be safely taken by the most delicate person. Every one knows that the best remedy for any disease is that which will cure it without producing pain. This is the reason why Ayer's Cathartic Pills are the best remedy for Costiveness that can be used. They are the best remedy for Costiveness that can be used.
